Upgrade to the ADS-B Mandate now and “Get up to \$1,500 cash back”

BendixKing is pleased to offer up to \$1,500 cash back on BendixKing equipment enabling you to affordably upgrade your aircraft to be compliant with Automatic Dependent Surveillance – Broadcast (ADS-B) Out mandate.

Program Incentives

For USA and Canada - receive a rebate of up to \$1,500 USD for certain combinations of the KSN 770 WAAS GPS Navigator, the KT 74 Mode S ADS-B OUT transponder and the KGX wireless ADS-B Certified Weather and Traffic Receiver with or without a built-in ADS-B compliant GPS.

The promotional combinations offered are as follows:

1. KT 74 – \$250 cash back
2. KT 74/KGX 150R – \$700 cash back
3. KT 74/KSN 770/KGX 130R - \$1,500 cash Back

This cash back offer will be provided to customers who purchase one of these upgrade packages from 17 July 2017 through 30 September 2017. Deliveries must be scheduled by 30 September 2017.

For Non-USA and Non-Canadian customers - receive an up to \$1,500.00 credit from international dealers from 17 July 2017 through 30 September 2017 for this same promotion.

Customers may request that the \$1,500.00 credit be applied to their bundled purchase by completing the rebate form found at the link below and providing the completed rebate form to their Non-USA/Canadian dealer.

The KSN 770 WAAS GPS Navigator/MFD meets the need of General Aviation aircraft within the satellite based navigation and surveillance airspace.

Pilots and operators are demanding significant improvements in performance, cost and system interfaces. The KSN 770 WAAS GPS Navigator/MFD meets this need and provides a situational awareness system that helps aircraft become visible to other aircraft by serving as a compliant data position source for Automatic Dependent Surveillance Broadcast (ADS-B Out).

The KSN 770 WAAS GPS Navigator also provides pilots with traffic advisory, weather radar and terrain aural and visual information with the following benefits:

- Provides vertically-guided approach procedure capability at airports that do not have ground based navigational aids
- Is an ADS-B compliant WAAS position source to meet the January 1st, 2020 mandate
- Allows RNAV (GPS) approaches to be used for alternate airport flight planning
- Allows you to easily control your GPS navigation, NAV/COMM, weather traffic and terrain, in any flight condition with confidence. It has the perfect blend of touchscreen, hard buttons and joystick

KSN 770 Key Features:

- Fly WAAS precision LPV approaches - The KSN 770 features a Wide Area Augmentation System (WAAS) and precision Localizer Performance with Vertical Guidance (LPV).
 - The KSN displays a full complement of safety systems including: On-board weather radar*, XM Datalink Weather*, Enhanced Ground Proximity Warning System (EGPWS)*, Terrain Awareness and Warning System (TAWS)*, Traffic Alert and Collision Avoidance System (TCAS) and split-screen capabilities.

KSN 770 Feature Highlights:

- ADS-B WAAS Position Source
- 10W Digital Radio Core (16W optional)
- Display of Traffic Collision Avoidance System (TCAS)
- WAAS Precision Localizer Performance (LPV)
- Display of On-Board Weather Radar *
- XM Datalink Weather*
- Display of Terrain Awareness & Warning System*
- Bezel Keys
- Touch Screen
- 8 Position Joystick
- View up to 3 screens on a single display
- PC Simulator included in box
- Compact size - 6.25" W x 5.25" H x 10" D

KT 74 ADS-B Out Transponder

The KT 74 is an exceptionally economical compliant ADS-B Out transponder for the world-wide ADS-B Out mandate.

It is a quick slide-in retrofit for the popular BendixKing KT 76 A/C and KT 78A transponders. Simply add a compliant GPS position source (like the KSN 770 or the KGX 150R) to the KT 74 and the KT 74 becomes an economical upgrade path for the 2020 ADS-B OUT mandate.

KGX Wireless ADS-B Receiver and WAAS GPS (KGX 150 only)

The KGX 150 remote ADS-B receiver with a WAAS GPS and the KGX 130 remote receiver without a GPS are best optimized when paired with the KSN 770 (KGX 130R) and/or the KT 74 transponder (KGX 150R). This KGX series also provides ADS-B traffic and weather services to compatible displays or tablet.

The KGX Wi-Fi option will enable your ADS-B Traffic and Weather on an Android or iOS compatible system and work with: ForeFlight, WingX Pro, iFly GPS, eKneeboard, Avare and FlyQ EFB Applications.

KGX 150R With WAAS GPS

KGX 130R – NO GPS

Value and Benefits

Today, aviation is transitioning from "ground based navigation and surveillance" to "satellite based navigation and surveillance". New avionics incorporating the satellite based technology must meet the needs of many different types of aircraft. This promotion makes upgrading your aircraft easy and affordable with an "up to \$1,500 cash back" rebate.
